

7th International Conference on Sustainable Built Environment 2016

December 16th to 18th at Earl's Regency Hotel, Kandy, Sri Lanka.

Special Session on Tall Building and Urban Habitat

17th December, 2016

The special session on Tall Building and Urban Habitat aims to bring together leading academics, Scientists, researchers and practicing engineers to share their experience and research outcomes in the area of Tall Buildings and Urban Habitat that include a broad m of applications to engineering practice This event will also provide an excellent opportunity for researchers and practicing engineers to discuss new developments and engineering challenges encountered in the planning, design, construction and life cycle maintenance in Tall Building and Urban Habitat.

Themes / Topics

1. Tall Buildings and Towers
2. Steel Technology
3. Optimal Design of Structures
4. Advanced Technology in Construction
5. Structural Stability
6. Fall Protection
7. Foundation of Mega Tall Buildings
8. Skyscrapers
9. New Urban Typologies
10. Resilient Infrastructure of Tall Buildings
11. Global Interchanges, Resurgence of The Skyscrapers
12. Architecture of Skyscrapers
13. Engineering Planning, Development and Construction of Tall Buildings

Programme Chair

Prof. Priyan Mendis,
University of Melbourne, Australia

Eng. Shiromal Fernando,
Council on Tall Building and Urban Habitat

Advisory Committee

Prof. Thishan Jayasinghe
University of Moratuwa

Prof. Ranjith Dissanyake
University of Peradeniya

Dr. U. I. Dissanayake
University of Peradeniya

Eng. Anil Hira
Council on Tall buildings and Habitats
