

7th International Conference on
Sustainable Built Environment 2016
December 16th to 18th at Earl's Regency Hotel, Kandy, Sri Lanka.

Special Session on Sustainable Water Management

17th December, 2016

Special session on Sustainable Water Resource Management aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Sustainable Water Resources Management. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Sustainable Water Resources Management.

Themes / Topics

1. Water reclamation and reuse
2. Energy efficient water management / treatment systems
3. Greenhouse gas emission from water systems
4. Analysis of water and environment quality
5. Rainwater harvesting
6. Restoration of contaminated environment
7. Hazardous chemicals and waste management
8. Public health and risk assessment
9. Nutrient removal and recovery from wastewaters

*You are kindly requested
to submit an abstract on or Before
15th July, 2016*
